The Little Village offers classroom extension and enrichment programs by reliable, experienced facilitators. Ours is a multi-faceted approach inspired by Montessori, Waldorf and Reggio Emilia philosophies, with the aim of fostering children's natural development and love of learning by encouraging self-sufficiency, critical thinking, and balance in the mind, body and spirit.

As they prepare for the world, now and in the future, we foster development of strong sense of self, of community and of stewardship, as demonstrated in good deeds, random acts of kindness, field trips, tours, and exploring what makes our Northwest Arkansas home special.
